

Accounts

Residents have again donated generously, both at the AGM in 2017, and with other contributions. Although activity from City Deal on Milton Road reduced somewhat during the year, we became aware of proposals for Residents' Controlled Parking Zones. Five newsletters have been printed and distributed, some with colour printing.

Abbreviated accounts for the financial year are presented below:

3. Chairman's Report

The last year saw a continuation of the debate surrounding the huge challenges faced by the city in response to the growth agendas being pursued by government, big business, the universities, colleges and property developers. The opportunistic development of student hostels and apartment hotels has left no room for the affordable accommodation so badly needed by those working in our essential public services. All around the city residents and small businesses are having to cope with round after round of consultations for bus corridors and planning applications for blocks of flats. Added to the mix we now have our elected mayor championing an underground metro-bus – more on this later this evening from our guest speaker.

Our own efforts here focussed on City Deal's Milton Road project but other topics also came to the fore including local planning applications (eg the Tivoli at Mitchams Corner) and the issue of commuter parking and the possibility of a controlled parking zone for our streets.

Regarding Milton Road, the powers-that-be were eventually forced to take on board our own plans developed with Milton Rd RA and Camcycle - causing U-turns and delays in the programme. This, together with deeply unpopular proposals for peak-time control points round the city centre and the Cambourne busway precipitated a re-think and rebranding. City Deal became the Greater Cambridge Partnership, and a new team of transport officers was hired. We are currently on our third Transport Director.

So the process has dragged on and on, testing our resolve and that of our partners in the Milton Road Alliance. There are important unresolved issues

still to be decided and I would urge you to attend the next LLF meeting promised for early June which will be followed by important decisions to be taken at the Greater Cambridge Partnership executive board in the summer – dates are shown in this agenda and on our website.

We knew that we had the overwhelming support of residents in pursuing our Milton Road mission. But when it came to the possibility of a controlled parking zone for our streets we found opinion to be divided. Once again the council's process for consulting with residents was unsatisfactory and confusing, not helped by two and now, possibly three, changes to the proposed boundaries. We are trying to get clarity on the next steps and also to encourage our local councillors to explore less prescriptive options with residents before they commit to a formal statutory consultation, which is not a very flexible process. All we can say with certainty is that the nearby zone which includes Ascham Road, Gurney Way, Courtney Way and Metcalfe Road has been recommended for statutory consultation and this is likely to happen in the summer. Regarding the triangle (or irregular rhomboid) of streets including Chesterton Hall Crescent, George Street and Herbert Street, local councillors have had several meetings with residents but no clear plan has yet emerged. If both of these neighbouring schemes go ahead they will undoubtedly have a knock-on effect for the Hurst Park Estate, as will the loss of parking bays on Milton Road when that project is eventually completed. We will continue to monitor the situation and keep everyone informed.

With regard to other matters of concern in the local area, such as policing priorities or council services, these are debated and decisions made at the North Area Committee of the City Council. It meets every three months at a local venue and residents can go along, ask questions and lobby our local councillors. The next opportunity will be on the evening of 21st June..

To finish on a more uplifting note I would like to thank our new neighbour Nicky Webb who moved into Highfield Avenue during the year and raised our spirits at Christmas by organising some hearty and well-attended carol singing. We look forward to that becoming an annual event – and I also want to thank my fellow committee members and all those who have supported HPERA in various ways during the year including other residents' groups and the Federation of Cambridge Residents' Associations (FeCRA).
